DELIVERY 6

STRUT & HANGING SUPPORTS 8 - 53

Strut, cantilever brackets, strut nuts, angle brackets, flat plate fittings, base plates, u shape fittings, wing fittings, strut joiners, strut closures, Pressix channel, siFramo modular framing, angle, threaded rod, stiffener tube, mounting plates, beam clamps, hangers and clips, Zip-Clip, wire, rope, chain, gas riser supports, welded / rubber lined nutclips, pipe hangers, allthread clips, heavy duty clamps, downpipe brackets, fire service clamps, stand-off saddles and brackets, stainless steel clamps, clip heads, strut clips and accessories, refrigeration clips, pipe saddles, ferrules, polyblock, thermoloc.

PASSIVE FIRE 54 - 59

Cast-in collars / shells / extension top, Combat collars, puddle flange assemblies, retrofit collars, gas collars, Unicollar, pipe fire wraps, fire wrap, fire damper packing, fire pillows / boxes, fire rated board / insulation wrap, fire sealants.

PLUMBING 60 - 85

Sound lagging, Thermobreak lagging, solar lagging, Foilflex no-clad lagging, NBR insulation, drain lagging, plumbing consumables, pipe sealants / markers, copper press fittings, copper press XL fittings, copper tube, copper tube refrigeration R410a, weld fittings.

HVAC 86 - 95

Pressure PVC fittings and pipe, hose clamps, spring hanger box kits, spring hanger kits, springs and accessories, neoprene and seismic mounts, isolation rubbers, waffle pads, duct hangers, duct strapping, j cleats, register springs.

ELECTRICAL 96 - 105

StudBite, ECT / AT3 / AT5 cable tray and accessories, fire rated cable ladder / tray and accessories, perforated cable tray, cable mesh basket, con-lock fixings, Zip-Clip lock, catenary wire, wire rope, conduit, electrical consumables, clips and saddles.

FASTENERS & FIXINGS 106 - 133

Vertigos, drop-in anchors, concrete screw anchors, concrete inserts, sleeve anchors, suspension anchors, through bolts, seismic rated through bolts, screw bolts, seismic rated concrete screw bolts, chemical anchors, masonry plugs, metal pin anchors, spikes, wall dogs, cavity fixings, plastic plugs, nylon anchors, gas fixings, pa fixings, plasterboard fixings, insulation fixings, cable ties, bolts, nuts, metal threads, headless screws, tie wires, washers, nails, drillpoint screws, type 17 screws, needlepoint screws, rivets.

CONSUMABLES & SAFETY 134 - 147

Silicone, sealants, adhesives, backer rod, grout and concrete, tapes, solvents and cleaners, cutting lubricants, markers, permanent markers, paint, crayons, chalk, building products, string lines, welding, welding rods, batteries, hand protection, head protection, hearing protection, eye and face protection, respiratory protection, site safety, fire extinguishers.

TOOLS 148 - 181

Threaded rod cutters, metal stud punch, pipe cutters, Zip-Clip tools, Velpress tools, drop-in setting tools, hollow wall anchor setting tool, chemical anchor tools, cobra gas tools, Milwaukee skins / tool kits / batteries / chargers, Novopress press tools, lasers, Exactcut saw kits, extension lead hooks, portable power and lights, SDS bits, diamond core drills, diamond core bits, HSS drill bits, screwdriver bits, spear bits, right angle drive, auger bits, spade bits, holesaws, cut off wheels, internal pipe cutter, grinding wheels, diamond blades, saw blades, flap discs, wire wheels, sandpaper, recipro blades, jigsaw blades, hacksaw blade, multi tool blade, knives and blades, caulking guns, soldering tools, duct tools, brooms, spanners and sockets, star picket tool, cable tie tensioners, platform ladders, storage equipment and solutions.

REFERENCE GUIDES 181 - 187

Screw/bolt size identification, chemical usage chart, HVAC strut clip size chart, pipe reference guides, pressure conversions, pressure conversion rates (rounded), metric conversions, imperial fraction to metric conversions, flow conversions, power conversions, temperature conversions.

Who we are

ACURA Group

A trusted supplier to the construction industry in South Australia, Western Australia and the Northern Territory, ACURA Group brings together quality, innovative products, and tailored solutions. A family owned and operated business; our success has been built on sound technical knowledge and world-class service.

We will help you keep your commercial projects on time and on budget, with a massive range of Plumbing, Electrical, Passive Fire (fire services) and HVAC (heating, ventilation and air conditioning) products delivered directly to you on site. We understand that no two projects are the same, which is why we also provide custom solutions that will stand the test of time.

We don't just have the products, our product specialists combine with qualified engineers to create solutions together. We're not just your supplier; we're your partner!

We've built quite a portfolio over the years. You'll find our products and expertise in iconic Adelaide and Perth builds like the Osborne Naval Shipyard, Adelaide Oval, nRAH and SAHMRI, New Perth Stadium, and Next DC Data Centre in Perth, as well as urban developments like the Bowden Precinct, and chain developments like Aldi.

How we can help

We're with you on site

When you're on site, 'perhaps' and 'maybe' just won't cut it. You need certainty and reliability. In fact, you demand it. That's why ACURA Group is the name more contractors trust. When it comes to meeting project deadlines, we deliver.

- We know our stuff – technical knowledge plus expert support to keep you compliant on site.
- You need it, we deliver it – we deliver directly to you on site when you need it.
- Stacks of stock – we have what you need, and we have plenty of it.
- Customer approved - satisfied customers are what we live for.

Specialist supplier

- **Your specialist solutions supplier for the construction industry in SA and WA, covering Plumbing, HVAC, Electrical and Fire Services**

Huge range in stock

- **We stock what we sell. Our fill rate is more than 96%, which means we can dispatch to site in lightning speed**
- **Over 13,500 items in stock**
- **We're the experts at sourcing hard to find products**

Fast, friendly delivery

- **Same day delivery to you on site**
- **5 delivery runs per day in metropolitan Adelaide and Perth to fit in with your schedule**
- **VIP Uber service for fast on-demand delivery**
- **Over 99% of delivery runs leave on time**
- **A complimentary box of ACURA biscuits with every order**

Customer testimonials

- **Our customers are our best endorsement**
- **Our regular Net Promoter Score surveys have a world-class customer satisfaction score of 80+**

Fast Delivery

You want to work, not wait. That's why we deliver to you on site, and we deliver fast. We have a large range in stock at our Adelaide and Perth warehouses, always ready to dispatch straight to you when needed, on one of our five delivery runs a day in the Adelaide and Perth metropolitan areas. We can respond to your short notice orders too, with our VIP delivery service ready to run when you need it, meaning you are not bound to any delivery times. Additional charges may apply.

We aim to deliver within two hours of a delivery run leaving our warehouse.

Adelaide - SA & Perth - WA

- **Order by 4pm the day before - get it by 8:30am the next day**
- **Order by 8:30am - get it by 11am the same day**
- **Order by 11am - get it by 1:30pm the same day**
- **Order by 12:30pm - get it by 3pm the same day**
- **Order by 2pm - get it by 4:30pm the same day**

Our speed of delivery is measured daily, with 99% of runs leaving on time.

Please note: large orders may require extra time.

DuroFrame

DuroFrame by ACURA Group is a fully modular and adjustable support solution designed as a cost-effective and time-efficient alternative to conventional welded assemblies. As a next-generation framing solution, it delivers strength, flexibility, and speed of installation across a wide range of construction applications. Built with precision and engineered for performance, it ensures seamless integration and reliable support for modern building services.

Key Features

- Modular system for rapid assembly and installation
- High-strength steel profiles engineered for durability and load capacity
- Precision-engineered connectors for secure, reliable joints
- Versatile design that enables multiple configurations and applications
- Surface finish options for enhanced corrosion resistance and long service life
- Lightweight components for reduced handling and installation time
- Compatible with a wide range of construction services and supports

Applications

- Mechanical, Electrical, and Plumbing (MEP) services
- HVAC system support and framing
- Seismic bracing and structural support solutions
- Cable tray and pipe support systems
- Custom frames, racks, and equipment supports
- General construction modular framing requirements

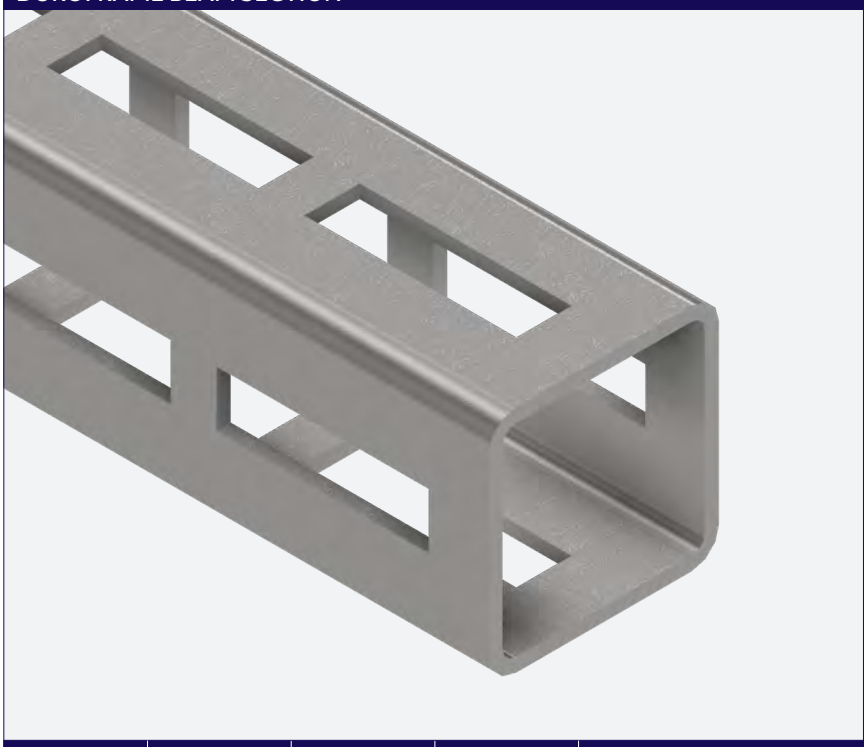

NATA Flinders University IMTS BUREAU VERITAS laycomm

Ultimate load capacities have been determined via testing and have been divided by a safety factor of 1.5 and represent an allowable working load. Mid Span deflection due to working load is limited to L/200, where L is the Span length. No further strength reduction factors have been utilised.

The working loads include consideration of the beam self-weight.

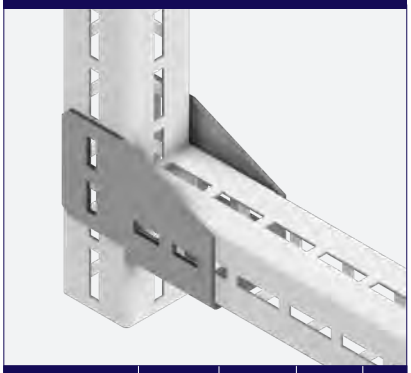

Values marked with * denote that allowable load is governed by deflection criteria.
**Strength of section limited by wall buckling locally below load application point

Key Features

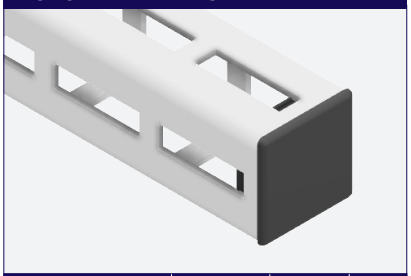

- Seismic Stability: Rigid welded joints provide exceptional resistance to vibration and lateral movement.
- Reliable Load Transfer: Ensures consistent force distribution from structure to foundation.
- Energy Absorption: Ductile design allows safe dissipation of seismic energy.
- Durable & Low Maintenance: No loosening or shifting under repeated stress.
- Flexible Application: Suitable for different orientations, services, and configurations across multiple modular designs.
- Available in custom length upon request

siFramo
Modular Steelwork Solutions

siFramo is a multi-functional, non-welded support system for the modular construction of framing solutions.

This amazing product simply screws together, eliminating the need for drilling, bolting and welding, effectively preventing on-site delays through its pregalvanised finish.

*Free design service.

Seismic rating available to make sure your project is **compliant**.

Features

- Non-welded modular steelwork
- Higher performance / lower weight of steel
- Maximum flexibility, minimum installation time
- Easy to assemble and disassemble
- Compatible with other installation systems
- High corrosion resistance as standard
- One thread forming screw for all component connections
- Frame and module assembly modifications can be made quickly on site with no loss of time, cut-outs or re-works

siFramo has revolutionised support structures for services by providing the first real alternative to welding structural framework for supporting weights beyond capacity of strut.

Parts are reusable

Multiple applications

*Conditions apply.

THE PERFECT SYSTEM FOR TIME-SAVING SCREW CONNECTION

The siFramo system is assembled via thread-forming tapping screws.

The chip-less, custom-fitted cold-work hardening of the female thread means the screw develops form closure and no longer becomes loose.

They can also be removed and reused again - excellent for adjustments.

HCP COATING - HIGH CORROSION PROTECTION

All siFramo products come with the high-quality HCP coating as standard.

To meet the most stringent corrosion protection standards, siFramo support system is developed with a new individual multi-layer coating, a design which is confirmed as complying with the corrosion category C4. This is a highly corrosivity category; hence the coating is suitable for industrial fields, involving exposure to high humidity and aggressive environmental conditions.

SIFRAMO PRE-FABRICATED SOLUTIONS

We support you in the planning and tendering process, provide logistics and, if you wish, produce to your specifications. Acura can provide professional assistance with application specialists and technical consultants, that will help tailor a solution for your project.

Acura can work with you, creating CAD drawings, detailing parts lists and schematic drawings, static calculations, and much more, developing a custom tailored solution designed to help you save time and costs.

Pre-assembled units encompass the potential for great savings and are a key part of modern installations. We also produce customer tailored mounting solutions made of siFramo and deliver siFramo sections cut to length based on customer specification. This minimises the installation work required, accelerates construction and allows certainty for calculation.

We can also assist you on-site with our know-how and a team of specialists, and help ensure assembly goes without a hitch.

SNAP Utility Collar

There is simply no compromise when it comes to ensuring all utility penetrations in multi-storey buildings are compliant to the safety standards outlined in the National Construction Code (NCC) 2022.

The SNAP Utility Collar is meticulously engineered to align with the most current standards, including AS 1530.4-2014 and AS 4072.1-2005, ensuring full compliance with NCC 2022.

SNAP Utility Collar

One solution for over 500 applications.

Special Features:

- Collar can be painted apart from the active area of the collar
- Collar can be installed with minimum 40mm separation – outer edge to outer edge of collar casing

See page 57.

SUPERIOR HANGING TECHNOLOGY

Zip-Clip

Zip-Clip is a range of innovative products designed for speed and ease of use. The clip is manufactured from a high quality zinc alloy. The oil impregnated sintered metal wedge is designed to offer the best locking solution.

The stainless steel spring ensures the wedge engages first time. The galvanised high tensile wire rope supplied offers you a better SWL than those found on the market. All our engineered suspension products are designed with quality and safety in mind.

Poly Ferrules

Acura Poly Ferrules have been developed to provide efficient insulation and pipe clamp support on systems operating above or below ambient temperatures. Poly Ferrules bring many energy and space saving benefits to the insulation of heating and chilled water systems.

Constructed from polyurethane with a foil outer layer. To be used in conjunction with a Nutclip or Strut Clip for the suspension of services where pipe insulation is required.

Environmentally Friendly

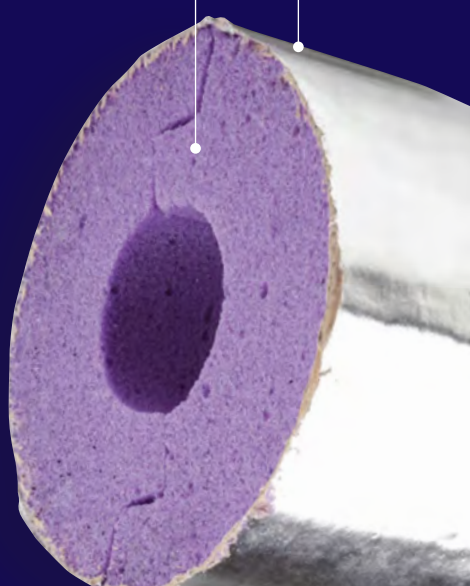

For the ultimate in pipe support technology, Acura Poly Ferrules surpass even the highest standards. Environmentally sound, this user-friendly product maximises your commitment to sustainability.

Boasting a Green Star rating and a Volatile Organic Compound (VOC) of zero, its insulating properties are also rated greater than 5. High stress foil vapour seal encapsulates the rigid yet lightweight structure.

Contractors Choice

Acura Poly Ferrules are resistant to fire at DIN 4102 B3 and have a temperature rating that sits between -50°C and 95°C.

This truly is the Contractors' Choice if efficiency and value are central to your needs.

Acura Sound Lagging

Acura Sound Lagging has an exceedingly dense mass layer providing maximum performance to ensure significant noise reduction, defined high sound absorption and excellent acoustic performance combined with a compacted fire resistant covering, supplied pre-cut so you simply wrap & tape.

Acura Sound Lagging is unique, just wrap and tape, job done.

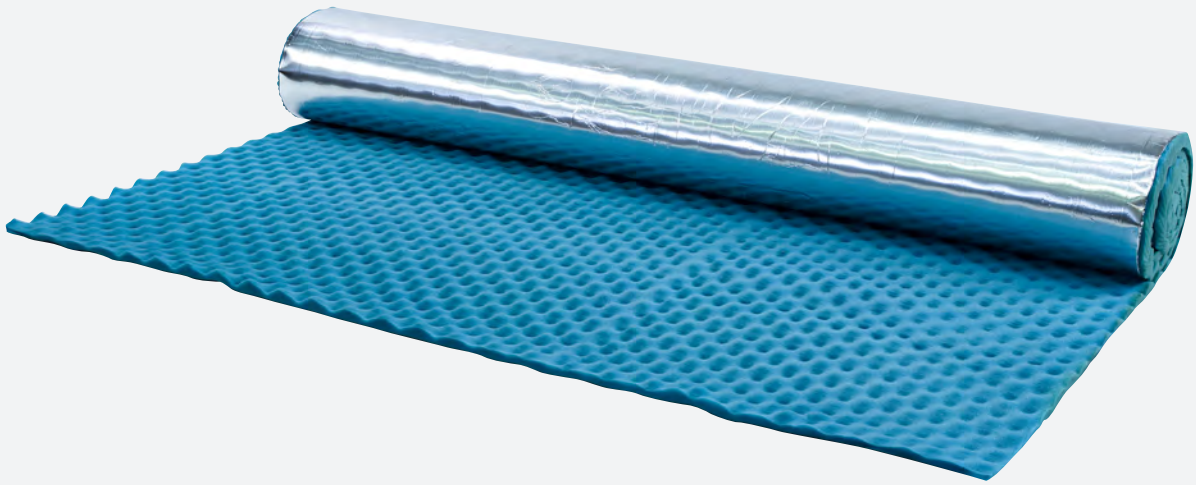

Features

- Green Star Rated ASTM D5116-17
- Odour free
- Lightweight product
- Contains no ozone depleting substances
- Fire Tested to AS 1530.3 with excellent flame resistance
- Independent Acoustic Test Report 6625-1.3R
- Complies with Building Code of Australia (BCA)
- Pre-cut for effortless installation

A- Weighted Insertion Loss of Bare Pipe versus pipe lagged with SOUNDLAG 21SL8025C

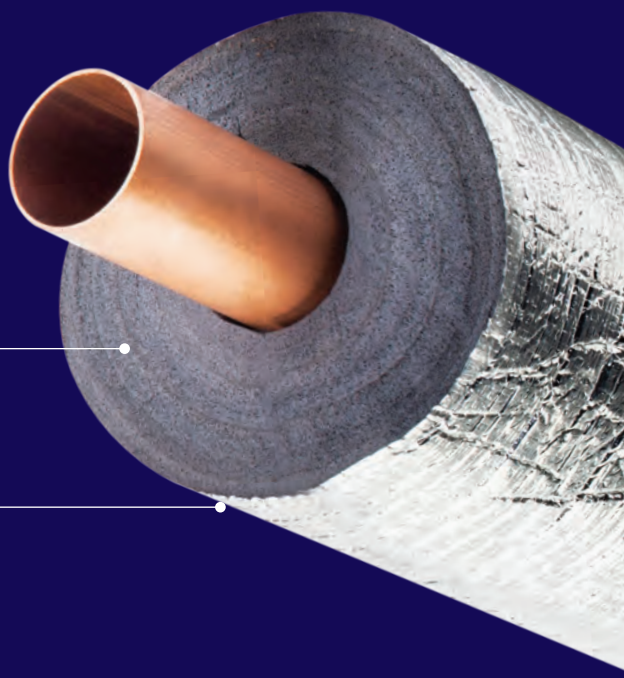

Acura Thermobreak Lagging

Acura Thermobreak Lagging is a closed cell, physically cross-linked polyolefin foam with a density of 25 kg/m3, faced with heat laminated pure aluminium foil with reinforcement.

Premium performance pipe insulation offering lower installation costs and maximum energy savings.

Features

- Completely closed cell, physically cross-linked foam pipe insulation
- Heat-bonded factory applied reinforced aluminium foil
- Pre-slit for faster installation
- Flexible, tough and durable
- Excellent compression resistance due to it's cross-linked foam structure
- Superior insulating properties compared to other flexible closed cell foams
- Chlorine free - suitable for use with stainless steel pipe
- Very high vapour diffusion resistance, Class 1 vapour retarder under ASHRAE 2009
- No cladding required for internal applications
- Conforms to ISO 5659-2 "Smoke Density & Toxicity".
- Anti-Microbial
- Green Star compliant product (VOC)
- Complies with NFPA 90A & NFPA 90B

THERMOBREAK LAGGING

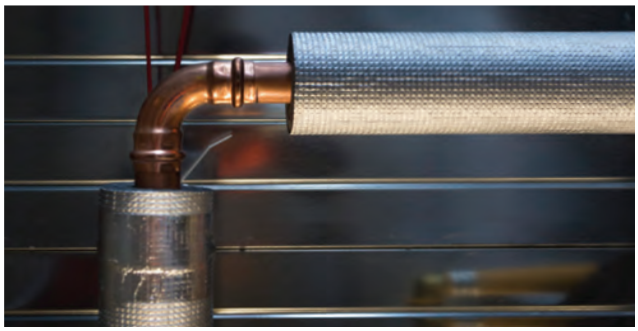

THERMOBREAK LAGGING

Other sizes available upon request

Premium performance thermal pipe insulation with a very high vapour diffusion resistance. Completely closed cell, physically crosslinked polyolefin foam with a density of 25 kg/m3, faced with heat laminated pure aluminium foil with reinforcement for steel, plastic and copper pipes. Pre-slit for faster installation.

Acura Thermobreak lagging is a preformed closed cell physically crosslinked polyolefin foam tube insulation with reinforced foil facing for steel, plastic and copper pipes.

Acura Thermobreak No-Clad

Acura Thermobreak No-Clad is physically (irradiation) crosslinked closed cell polyolefin foam with factory applied, heavy duty multilayer composite with a specially developed UV and weather durable coating.

Designed as a cost effective alternative to cladding of pipe and duct insulation to prevent mechanical damage.

Features

- Puncture resistant multilayer aluminium foil.
- A salt-water resistant, UV and weather durable coating.
- The aluminium foil is reinforced with an ultra-tough, close weave scrim.
- The flexible closed cell physically cross-linked polyolefin foam underneath allows for distribution of impact force thus inhibiting mechanical damage to the insulation.
- Excellent compression resistance due to its cross-linked foam structure.
- Superior insulating properties compared to other flexible closed cell foams.
- Anti-Microbial.
- Although designed to be resistant to mechanical damage, Thermobreak No-Clad has been designed for easy fabrication using sharp knives.

Acura NBR Insulation

NBR pipe insulation is a flexible closed cell thermal insulation material for condensation control in air-conditioning, refrigeration and chilled water installations.

It is also suitable for reducing thermal losses in heating and plumbing systems. The combination of its technical properties (a low thermal conductivity and a high resistance to water vapour transmission) and its competitive price makes it a cost effective energy-saving solution.

Outstanding thermal performance

Use recommended glue for a secure, sealed join

Built-in water vapour barrier

NBR INSULATION

NBR INSULATION

Other sizes available upon request

Refer page 137 for Adhesive.

NBR is a flexible closed cell elastomeric foam suitable for condensation control, thermal insulation and sound absorption. The NBR range covers the majority of pipe sizes used in every possible installation.

NBR is rated AS 1530.3 for spread of flame and fire propagation. It does not melt, nor drip when burning, therefore does not cause fire transfer. Low smoke density makes it a safer option.

Quick and easy to install due to its high flexibility, dimensional stability and smooth surface skin. It can be applied on pipes, ducts and tanks.

NBR pipe insulation is compounded to achieve a high water vapour diffusion resistance through its closed cell structure and outer dense skin. This helps maintain a steady thermal performance and a long service life.

Material strength is approximately twice as strong as other elastomerics, an elastomeric foam based on synthetic rubber with density between 60-70 Kg/m^3.

siFramo
Modular Steelwork Solutions

siFramo is a multi-functional, non-welded support system for the modular construction of framing solutions.

This amazing product simply screws together, eliminating the need for drilling, bolting and welding, effectively preventing on-site delays through its pregalvanised finish.

*Free design service.

Seismic rating available to make sure your project is **compliant**.

Features

- Non-welded modular steelwork
- Higher performance / lower weight of steel
- Maximum flexibility, minimum installation time
- Easy to assemble and disassemble
- Compatible with other installation systems
- High corrosion resistance as standard
- One thread forming screw for all component connections
- Frame and module assembly modifications can be made quickly on site with no loss of time, cut-outs or re-works

siFramo has revolutionised support structures for services by providing the first real alternative to welding structural framework for supporting weights beyond capacity of strut.

Parts are reusable

Multiple applications

*Conditions apply.

See page 26 for our Sikla product range.

ACURA PRESS

The Copper Press-Fit Connection System is fully certified, reliable and simple to use, secure with permanent joints, practical design, leak indicator and flame free installation.

Guaranteed lifelong secure leak-proof joints. Copper Press is versatile, cost effective and safe. The Copper Press joints can't be tampered with and the design ensures easy access. Fully certified, practical on-site with timeless performance. With a simple installation method and no brazing, it only takes seconds to create a permanent joint between pipe and fitting.

ACURA PRESS

Our copper press range consists of fittings sized 15-50mm.

Acura copper press-fit connection system is always cost effective in material, time and labour. It offers a simple installation method that does not require brazing.

The copper press superior resistance reduction technology allows water or gas to flow smoothly throughout the total pipeline system.

Significantly improves the pipe and flow performance as well as the efficiencies created through the installation method. Copper press is cost effective and also minimises material, time & labour.

ACURA PRESS XL

Copper press XL has only three internal parts, the O-ring, grip ring and the seal. These parts have an internal diameter larger than the tube, which allows for easy tube insertion and pre-press leak indication.

ACURA PRESS XL

The copper press XL range consists of fittings sized 65-100mm. Using a fast, secure and flame-free install process, copper press XL is easy to both install and inspect.

Copper press XL is installed with a hydraulic press tool with a compatibly sized V profile jaw. Once completed, the fitting forms a permanent and durable joint with the pipe and has a 25-year warranty ensuring you peace of mind.

All copper press XL fittings include a stainless steel grip ring with equally spaced collapse zones ensuring all round equal grip on the tube diameter and an even seal compression between tube and fitting after pressing.

AS 1432-2004
License No. WMKA 21221

Manufactured to Australian Standard AS1432, Acura copper pipes are designed to be strong and reliable and are fully compatible with our copper press and weld ranges of fittings.

Acura provides peace of mind knowing you're using the highest quality product combined with the best value for money for any gas or water piping system.

As a result of our direct supply partnership with the manufacturer, we are able to supply world-class piping at highly competitive prices.

STUDBITE

FAST - EFFICIENT - SMART

- Reduces install times by over 50%
- Reduces on-site labour costs
- Reduces materials required
- Removes on-site frustration
- Compatible with existing & traditional installation systems

SNAP Utility Collar

There is simply no compromise when it comes to ensuring all utility penetrations in multi-storey buildings are compliant with the safety standards outlined in the National Construction Code (NCC) 2022.

The SNAP Utility Collar is meticulously engineered to align with the most current standards, including AS 1530.4-2014 and AS 4072.1-2005, ensuring full compliance with NCC 2022.

SNAP Utility Collar

One solution for over 500 applications.

Special Features:

- Collar can be painted apart from the active area of the collar
- Collar can be installed with minimum 40mm separation – outer edge to outer edge of collar casing

See page 57.

CAVITY FIXINGS

The Acura MSL Anchor is a unique German-made anchor used for fastening into challenging base materials where no others can. Perfect for fragile/ hollow applications, MSL Anchors install without the need for chemical fastening. The anchor also features a self-indicating torque mechanism to ensure its effectiveness & security.

* Refer page 152 for Setting Tool.

The hollow wall anchor is an excellent fixing for higher loads in plasterboard walls and ceilings. Supplied with a crossed pan head screw.

Use the setting tool to make light work of the installation of this superior fixing.

CABLE TIES

Ball lock stainless steel cable ties consist of a non-releasable locking mechanism that offers infinite adjustment along the length of the tie. Suitable for use where additional strength, fire resistance and chemical resistance is required.

Cobra V GS 738C

Cordless SuperPinner

Product Features

- Weighs only 3.46kg
- Easy to adjust depth control
- Easy to position in the corner with contact nose
- Easy jam clearance
- Ultra-light swing trigger - only 1.2kg
- Stainless steel mesh filters
- Easy one-step pin loading
- Easy to load fuel cell
- Soft moulded grip
- LED low battery indicator
- Reversible belt loop hook

CUTTINGSTATION SS7

A go-anywhere, multi-purpose cutting station with unrivalled safety features to minimise vibration, sparks, noise and dust.

- Recessed 110v inlet power supply, and 2 x 110V internal sockets
- Extendable back panel provides extra workspace for mitre saws
- Sound deadening, fire-rated foam to reduce noise pollution
- PVC curtains to contain sparks
- Rubber mat to reduce vibration
- Rubberised wheels for reduced vibration
- Extendable support arms with 4 configurations
- Heavy-duty all-swivel wheels for easy moving
- Secure cabinet to keep your tools safe
- Swarf collector with dust extractor connection

SITESTATION SS2

Finally - a purpose-built solution to your on site work station needs

The SiteStation gives you a convenient place for performing routine on site tasks, while also providing secure storage for your valuable equipment. The top section features a folding slanted work surface – ideal for displaying plans and charts – which when shut provides an additional lockable storage area – ideal for power tools, PPE and fixings.

- Gas struts on both sides of top compartment
- Slanted, folding work surface with lockable concealed storage area
- Robust construction giving maximum protection
- Keyed-alike 2-point tamper-proof locking system
- Pockets on doors for smaller components
- Powder coated for maximum durability
- Full-width shelves in both lower and upper compartments
- Fork skids with fixing slots for easily adding castors

MORSE®

HOLE SAWS

Advanced Bi-Metal Hole Saws

The latest sawing innovation.

Applications

Wood, plastic, machinable metals, stainless steel, nail-embedded wood.

Features & Benefits

- Patent pending tooth set design
- New cap - reduces runout and vibration
- Premium M42 high speed steel cutting edge, 8% cobalt - over 2 X greater life span
- Cutting depth - 1-15/16" (49.2 mm)
- Heavy-duty 0.050" (1.27 mm) side wall - For greater stability
- New side slot - increased leverage for faster, easier slug removal

Optimised new teeth, designed to remove material faster

New coating reduces side wall friction for efficient cutting

Holesaw Mandrel

Durable, heavy-duty carbon steel mandrels come complete with pilot drills. Adapt Morse hole saws to any power drill used by professionals.

Various shank sizes available for 3/8" or 1/2" drills

Hex arbors with non-slit jaw slots

ARMORGARD SOLUTIONS

ARMORGARD SITESTATION SS2

PART N°	DESCRIPTION	QTY
39AGSS2	Armorgard SiteStation SS2	1

Finally - a purpose-built solution to your on-site workstation needs.

The SiteStation gives you a convenient place for performing routine on site tasks, while also providing secure storage for your valuable equipment like power tools, PPE and fixings.

- Split into two compartments with separate lockable doors. Both compartments contain full width shelving for easy organisation of contents.
- Slanted working shelf in top section also acts as a lockable lid for the compartment behind.
- Ideal for storing anything from PPE to fixings and power tools.
- Allows project managers to stay close to the work and workers on site, while reducing the requirement for temporary site offices.
- Robust design and 5-lever deadlocks ensure the SiteStation is secure.
- LED work light and 2 x 240V sockets are built in.
- Lifting eyes, fork pockets and castors mean the unit is very mobile and easy to move around site.
- Weather resistant rubber gaskets around the openings help prevent water ingress.

ARMORGARD CUTTINGSTATION SS7

PART N°	DESCRIPTION	QTY
39AGSS7	Armorgard CuttingStation SS7	1

A go-anywhere, multi-purpose cutting station with unrivalled safety features to minimise vibration, sparks, noise and dust.

The Armorgard CuttingStation is a neat, mobile workstation that eliminates the need for a separate cutting room and is essential for safely cutting lengths, such as conduit, timber, cable tray and pipe.

The SS7 model improvements include new lighting and chamfered corners to further reduce noise. You'll also find a new expandable working area to accommodate mitre saws and cutaway sides for handling longer lengths.

- A multi-purpose cutting platform, with a secure cabinet beneath the workbench area
- Recessed 240V inlet power supply; 2 x 240V internal sockets
- Extendable support arms with 4 configurations
- Heavy-duty all-swivel wheels for easy moving
- Extendable back panel provides extra workspace for mitre saws
- Sound deadening fire-rated foam to reduce noise pollution
- Rubber mat to reduce vibration
- Rubberised wheels for reduced vibration
- PVC curtains to contain sparks
- Secure cabinet to keep your tools safe
- Swarf collector with dust extractor connection point
- Improved lighting position for increased productivity

ARMORGARD PIPERACK PR1

PART N°	DESCRIPTION	QTY
39AGPR1	Armorgard PipeRack PR1	1

The adaptable mobile on-site pipe and conduit storage solution.

The Armorgard PipeRack is an innovatively designed wheeled storage rack that keeps pipes and strut organised and easy to manoeuvre while you're working on site.

PipeRack is available with a 1 tonne capacity, or can be upgraded to a 2 tonne capacity with an optional upgrade kit.

- Mobile rack for storing copper pipe, conduit etc.
- Unique fold down design allowing units to be stacked up to 6 units high.
- Heavy-duty construction built to be put to the test.
- PipeRacks can be linked together to cater for longer lengths, using the Armorgard Linking Kit.
- Can be linked together to hold 6 metre lengths of material.

Armorgard PipeRack Measurements & Weight

ARMORGARD FITTINGSTOR FC6

PART N°	DESCRIPTION	QTY
39AGFC6	Armorgard FittingStor FC6	1

The storage cabinet designed to help keep your tools safe on site.

FittingStor is designed to secure all your costly M&E components and tools in one safe, easily portable location.

Featuring adjustable shelves, removable fittings bins and heavy duty castors for ease of movement, this innovative product is in high demand among site contractors.

- 5-lever deadlocks - top and bottom for maximum security.
- Robust steel plate construction, and powder coated for maximum durability
- Includes 3 sturdy reinforced adjustable shelves.
- Forklift skids are built in for easy transportation.
- Heavy duty industrial castors fitted as standard.

Armorgard SiteBoss Int. Measurements & Weight		
Depth	Width	Height
610mm	1500mm	1450mm

Pioneering jobsite security and usability. With over 30 years of knowledge behind its design, we've perfected secure jobsite tool storage.

Be the boss of your tool security. This cabinet is built to last and built to protect, with ultra-secure 14 gauge steel, a multi-spur locking mechanism and anti-tamper joins.

It has a capacity of over 1.13 cubic metres and brings ultimate organisation, with 3 shelves that can be adjusted to 4 different positions. SiteBoss makes your job quicker and easier.

- Featuring extreme UltraLock – multi-spur locking mechanism for top security
- Unique design product made from 14 gauge steel
- Tamper-proof joins prevent the lid being forced open
- Suitable for your jobsite
- Three robust shelves that can be put in four different positions, each featuring a cable pass-through point
- Choose from a range of sizes – chests, piano boxes and cabinets
- Powder coated for maximum durability
- 6 gauge, four way forklift pockets for easy transportation
- Robust castors and crane lifting eyes are available as optional extras to ease the handling on your jobsite
- Cable pass-through point to provide you power cord access

ARMORGARD MOBILE TUFFBENCH BH1270M-W

Engineer's vice and chain vice not included.

630mm	990mm	640mm

The universal mobile workbench that's also a heavy-duty cabinet!

Use the Armorgard Mobile TuffBench™ for a day and you'll wonder how you ever got by without it.

A combination of heavy-duty storage cabinet and multi-purpose work surface, this innovative workbench makes any job that bit easier, while ensuring that your tools and equipment remain safe from thieves and damage.

Its ultra-tough surface is ideal for fixing chain vice, engineer's vice and other equipment, making it indispensable for M&E contractors when pipe threading and bending.

- Fitted with wooden top, making it indispensable for M&E contractors.
- Secure cabinet section beneath the workbench to lock away tools and equipment.
- Safe working load of 1000kg.
- Powder coated with anti-corrosive undercoat.
- Fitted with extra heavy-duty wheels, to make it easier to manoeuvre on site.
- Handles fitted to each end of the unit to make it easier to move.

Can be used with engineer's vice or a chain vice (not included).

Reference Guides

ACURA

Notes

Screw/Bolt Size Identification

The description of the size of the screw is usually listed as three figures:

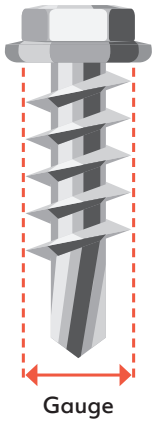

1. The first figure indicates the gauge of the screw (g).
2. The second figure indicates the threads per inch (T.P.I.).
3. The third figure in indicates the length of the screw - mm or inches (").

Gauge	4g	5g	6g	7g	8g	9g	10g	12g	14g
Diameter (mm)	2.85	3.3	3.5	3.9	4.2	4.5	4.8	5.5	6.3
Diameter (inches approx.)	7/64	1/8	9/64	5/32	11/64	0.177	3/16	7/32	1/4

Screw/Bolt Gauge

The gauge of the screw is determined by the basic size of the thread outside diameter.

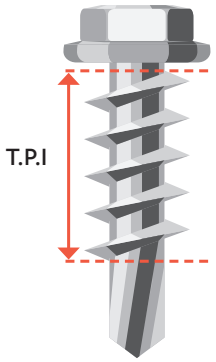

Figure 1

Screw/Bolt T.P.I.

The T.P.I. (threads per inch) is the number of thread crests that can be counted along a lineal measurement of 1" (25.4mm).

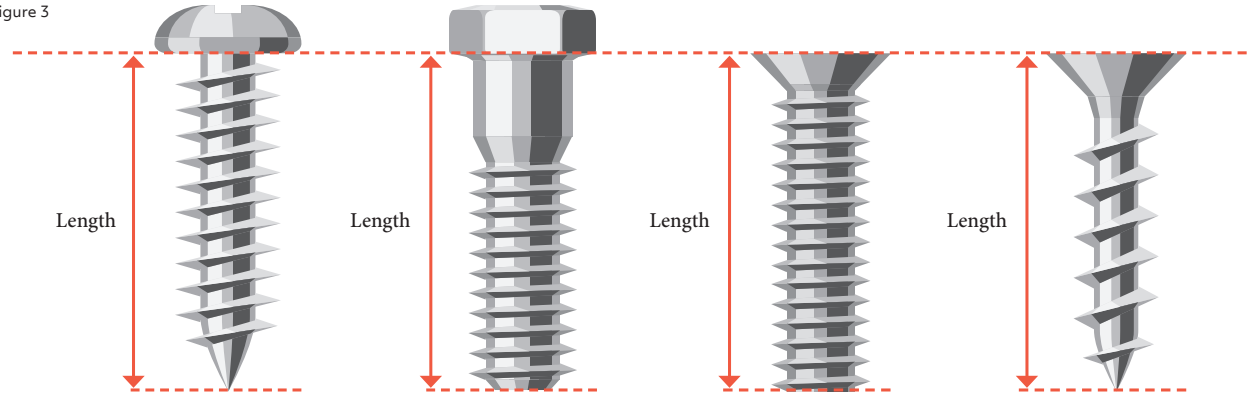

Figure 2

Screw/Bolt Length

Length is measured from the flat part of the head to the tip or blunt end of the screw/bolt. Some types of fasteners such as HEX bolts that are flat on top and bottom, are measured from the bottom or underside of the head as illustrated below.

Figure 3
