STRUT & HANGING SUPPORTS 9

Strut, cantilever brackets, Pressix, siFramo, threaded rod, angle, Zip-Clip, nutclips, pipe hangers and clamps, fire service clamps, adjustable althread clips, stand off saddles and brackets, stainless clamps, clip heads, strut and refrigeration clips, pipe saddles, ferrules.

PASSIVE FIRE 43

Cast-in collars, puddle flange assemblies, retrofit collars, gas collars, Unicollar, pipe fire wraps, Fyrewrap, Fyreboxes, fire damper packing, Maxilite board, fire sealants.

PLUMBING 49

Sound, Thermobreak and solar lagging, NBR insulation, drain lagging, plumbing consumables, pipe sealants and markers, Velpress and Velpress XL fittings, copper tube, V-Weld fittings, Triplus acoustic pipes and fittings.

HVAC 81

Pressure PVC fittings and pipe, hose clamps, spring hanger box kits, spring hanger kits, springs and accessories, neoprene and seismic mounts, isolation rubbers, waffle pads, duct hangers, duct strapping, j cleats, register springs.

ELECTRICAL 89

Conduit, electrical consumables, clips and saddles, ECT/AT3/AT5 cable tray and accessories, fire rated cable ladder, ladder kit, cable tray, and cable tray accessories, perforated cable tray, cable mesh basket, catenary wire rope and accessories.

FASTENERS & FIXINGS 99

Vertigos, drop-in anchors, drillcutta range, concrete inserts, sleeve anchors, suspension anchors, through bolts, screw bolts, concrete tappers, chemical anchors, metal pin anchors, spikes, fast-drives, wall dogs, cavity fixings, plastic plugs, nylon anchors, gas fixings, PA fixings, plasterboard fixings, insulation fixings, cable ties, bolts, nuts, metal threads, headless screws, tie wires, washers, nails, drillpoint screws, type 17 screws, needlepoint screws, rivets.

CONSUMABLES & SAFETY 127

Silicone, sealants, adhesives, backer rod, grout and concrete, tapes, solvents and cleaners, cutting lubricants, markers, paint, crayons, chalk, string lines, welding, hand/head/hearing/eye/face/respiratory protection, site safety, fire extinguishers

TOOLS 141

Threaded rod cutters, metal stud punch, pipe cutters, Velpress/Novopress press and setting tools, chemical anchor and Cobra gas tools, Milwaukee skins and batteries/chargers, lasers, Exactcut saw kits, portable power and lights, diamond core drills, SDS/diamond core/HSS drill/screwdriver/spear/auger/spade bits, right angle drive, holesaws, cut off and grinding wheels, flap discs, knives, blades, caulking guns, soldering and duct tools, spanners and sockets, cable tie tensioners, platform ladders, storage equipment and solutions.

Who we are

ACURA Group

- ◆ A trusted supplier to the construction industry in South Australia, Western Australia and the Northern Territory, ACURA Group brings together quality, innovative products and tailored solutions. A family owned and operated business; our success has been built on sound technical knowledge and world-class service.

We will help you keep your commercial projects on time and on budget, with a massive range of Plumbing, Electrical, Passive Fire (fire services) and HVAC (heating, ventilation and air conditioning) products delivered directly to you on site. We understand that no two projects are the same, which is why we also provide custom solutions that will stand the test of time.

We don't just have the products, our product specialists combine with qualified engineers to create solutions together. We're not just your supplier; we're your partner!

We've built quite a portfolio over the years. You'll find our products and expertise in iconic Adelaide and Perth builds like the Osborne Naval Shipyard, Adelaide Oval, nRAH and SAHMRI, New Perth Stadium and Next DC Data Centre in Perth, as well as urban developments like the Bowden Precinct, and chain developments like Aldi.

How we can help

We're with you on site

When you're on site, 'perhaps' and 'maybe' just won't cut it. You need certainty and reliability. In fact, you demand it. That's why ACURA Group is the name more contractors trust. When it comes to meeting project deadlines, we deliver.

- We know our stuff – technical knowledge plus expert support to keep you compliant on site.
- You need it, we deliver it – we deliver directly to you on site when you need it.
- Stacks of stock – we have what you need, and we have plenty of it.
- Customer approved - satisfied customers are what we live for.

Specialist supplier

- Your specialist solutions supplier for the construction industry in SA and WA, covering Plumbing, HVAC, Electrical and Fire Services

Huge range in stock

- We stock what we sell. Our fill rate is more than 97% (Feb 2020), which means we can dispatch to site in lightning speed
- Over 7,000 items in stock
- We're the experts at sourcing hard to find products

Fast, friendly delivery

- Same day delivery to you on site
- Multiple delivery runs per day with on-demand VIP delivery service available
- Over 99% of delivery runs leave on time, with guaranteed delivery within 2 hours and Adelaide and 3 hours in Perth
- A complimentary box of biscuits with every delivery

Customer testimonials

- Our customers are our best endorsement
- Our regular Net Promoter Score surveys have a world-class customer satisfaction score of 80+

Fast Delivery

You want to work, not wait. That's why we deliver to you on site, and we deliver fast. We have a large range in stock at our Adelaide and Perth warehouses, always ready to dispatch straight to you when needed. With five delivery runs a day in the Adelaide metropolitan area and two delivery runs per day in Perth. We can respond to your short notice orders too, with our VIP delivery service ready to run when you need it, meaning you are not bound to any delivery times. Additional charges may apply.

Adelaide - SA

We aim to deliver within two hours of a delivery run leaving our warehouse. Our speed of delivery is measured daily, with 99.9% of runs leaving on time.

- 7:30am - cut off 7:15am
- 10:00am - cut off 9:45am
- 12:30pm - cut off 12:05pm
- 2:00pm - cut off 1:45pm
- 3:30pm - cut off 3:15pm

Perth - WA

We aim to deliver within three hours of a delivery run leaving our warehouse.

- 6:30am - cut off 4:00pm previous day
- 12:00pm - cut off 11:00am

Please note: large orders may require extra time.

siFramo Modular Steelwork Solutions

siFramo is a multi-functional, non-welded support system for the modular construction of framing solutions.

This amazing product simply screws together, eliminating the need of drilling, bolting and welding, effectively preventing on-site delays through its pregalvanised finish.

Features

- Non-welded modular steelwork
- Higher performance / lower weight of steel
- Maximum flexibility, minimum installation time
- Easy to assemble and disassemble
- Compatible with other installation systems
- High corrosion resistance as standard
- One thread forming screw for all component connections
- Frame and module assembly modifications can be made quickly on site with no loss of time, cut-outs or re-works

siFramo has revolutionised support structures for services by providing the first real alternative to welding structural framework for supporting weights beyond capacity of strut.

Parts are reusable

Multiple applications

*Conditions apply.

*Free design service.

Seismic rating available to make sure your project is **compliant**.

SUPERIOR HANGING TECHNOLOGY

Zip-Clip

Zip-Clip is a range of innovative products designed for speed and ease of use. The clip is manufactured from a high quality zinc alloy. The oil impregnated sintered metal wedge is designed to offer the best locking solution.

The stainless steel spring ensures the wedge engages first time. The galvanised high tensile wire rope supplied offers you a better SWL than those found on the market. All our engineered suspension products are designed with quality and safety in mind.

SureFIX

PIPE CLAMPS

SureFix ISO Clips are double screw clamps for suspending all pipes with a unique rubber insulation design to prevent rolling and binding. Unmatched performance for all pipes including: PVC, HDPE, Copper, Steel and PEX.

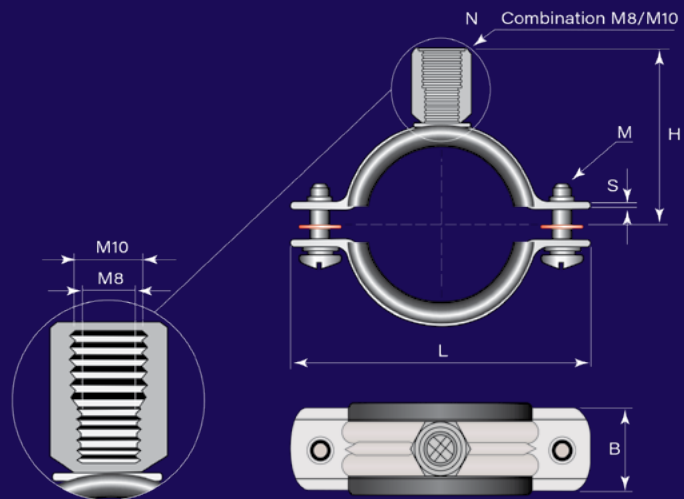

Features

- Unique rubber design to prevent rolling and binding which allows pipes to slide on installation
- EPDM isolation rubber for sound reduction up to 15Db (DIN4109)
- High strength engineered Steel Profile design
- M8-M10 Combination Nut for connection
- Plastic shake proof washer prevents bolts falling out on installation
- Finish: 8-12micron Electro-zinc plating

Applications

Recommended for the suspension and support of stationary pipelines where noise reduction is required in both vertical and horizontal application.

- To suit all pipes from 12 mm to 168 mm including PVC, HDPE, Copper, Steel and Pex
- Temperature rating from -50°C up to +110°C

Poly Ferrules

Acura Poly Ferrules have been developed to provide efficient insulation and pipe clamp support on systems operating above or below ambient temperatures. Poly Ferrules bring many energy and space saving benefits to the insulation of heating and chilled water systems.

Constructed from polyurethane with a foil outer layer. To be used in conjunction with a Nutclip or Strut Clip for the suspension of services where pipe insulation is required.

Environmentally Friendly

For the ultimate in pipe support technology, Acura Poly Ferrules surpass even the highest standards. Environmentally sound, this user-friendly product maximizes your commitment to sustainability.

Boasting a green star rating and a Volatile Organic Compound (VOC) of zero, its insulating properties are also rated greater than 5. High stress foil vapour seal encapsulates the rigid yet lightweight structure.

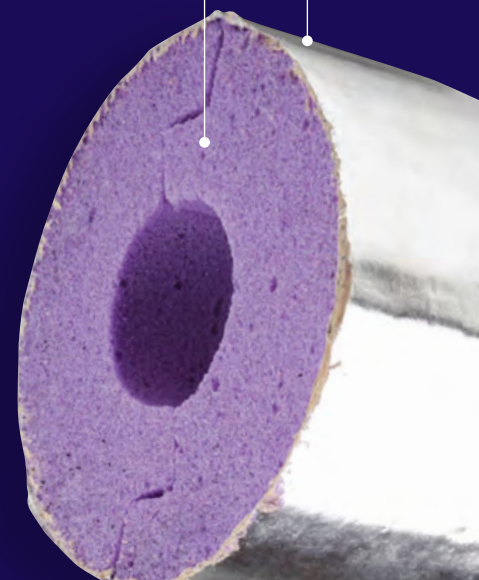

Contractors Choice

Acura Poly Ferrules are resistant to fire at DIN 4102 B3 and have a temperature rating that sits between -50°C and 95°C.

This truly is the contractors' choice if efficiency and value are central to your needs.

High stress foil vapour seal

Green Star Rated

Applications

FyreWrap's core application is for fire rating metal ducts and duct systems, both single-layered and double-layered for either horizontal or vertical systems.

FyreWrap's aluminium foil with fiberglass-reinforced scrim which completely encapsulates the core provides additional handling strength, protection from tearing and most importantly total anti-bacterial resistance. Importantly, it also allows ease of identification of the FyreWrap in the field by building certifiers and engineers.

FyreWrap

FyreWrap is a foil-faced, fire protection wrap blanket designed to provide fire rating to ducts, kitchen exhausts, fan enclosures, penetration seals, critical services and structural steel elements.

Handling strength,
protection from tearing.

Highly engineered,
lightweight and
high temperature
thermal insulation
material-Insulfrax.

Lightweight -
up to 5 times
lighter than
traditional fire
spray

Clear identification
for fire certifying and
auditing purposes.

Greenguard listed for
microbial resistance.

Acura Sound Lagging

Acura Sound Lagging has an exceedingly dense mass layer providing maximum performance to ensure significant noise reduction, defined high sound absorption and excellent acoustic performance combined with a compacted fire resistant covering, supplied pre-cut so you simply wrap & tape.

**Acura Sound Lagging is unique,
just wrap and tape, job done.**

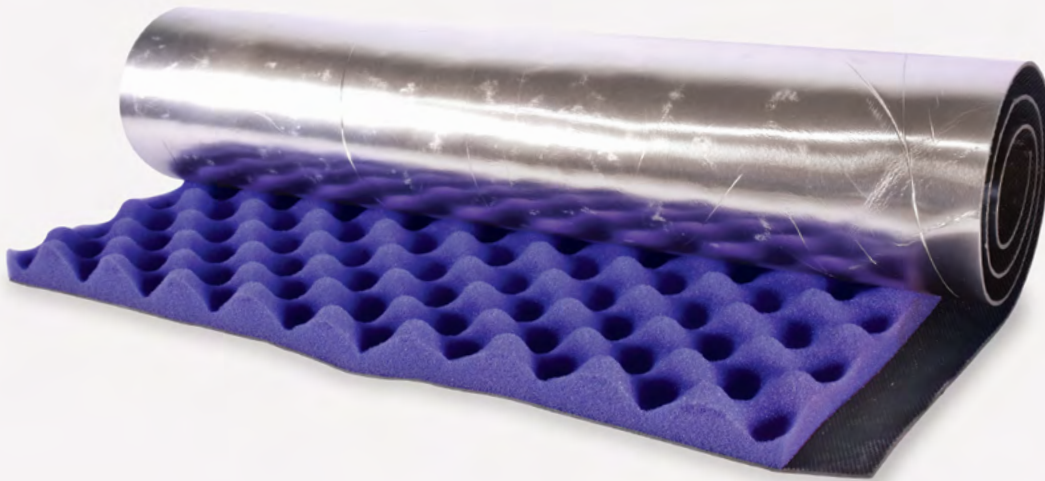

Features

- Green Star Rated ASTM D5116-17
- Odour free
- Light weight product
- Contains no ozone depleting substances
- Fire Tested to AS 1530.3 with excellent flame resistance
- Independent Acoustic Test Report 6625-1.3R
- Complies with Building Code of Australia (BCA)
- Pre-cut for effortless installation

INSERTION LOSS (DB) OF SOUND LAGGING

◆ Acura Thermobreak Lagging

Acura Thermobreak Lagging is a closed cell, physically crosslinked polyolefin foam with a density of 25 kg/m³, faced with heat laminated pure aluminium foil with reinforcement.

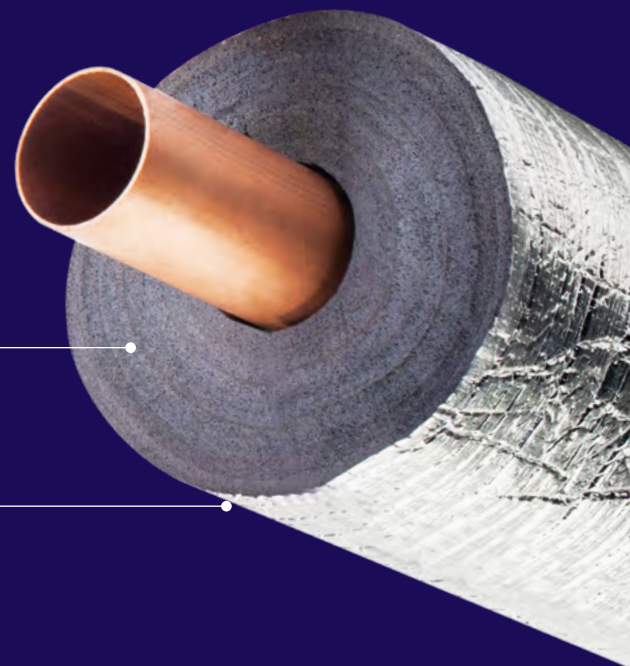

Premium performance pipe insulation offering lower installation costs and maximum energy savings.

◆ Features

- Completely closed cell, physically crosslinked foam pipe insulation
- Heat-bonded factory applied reinforced aluminium foil
- Pre-slit for faster installation
- Flexible, tough and durable
- Excellent compression resistance due to its cross linked foam structure
- Superior insulating properties compared to other flexible closed cell foams
- Chlorine free - suitable for use with stainless steel pipe
- Very high vapour diffusion resistance, Class 1 vapour retarder under ASH RAE 2009
- No cladding required for internal applications
- Conforms to ISO 5659-2 "Smoke Density & Toxicity".
- Anti-Microbial
- Green star compliant product (VOC)
- Complies to NFPA 90A & NFPA 90B

Very high vapour diffusion resistance

Reinforced Aluminium Foil

Acura NBR Insulation

NBR insulation pipe installation is a flexible closed cell thermal insulation material for condensation control in air-conditioning, refrigeration and chilled water installations.

It is also suitable for reducing thermal losses in heating and plumbing systems. The combination of its technical properties (a low thermal conductivity and a high resistance to water vapour transmission) and its competitive price makes it a cost effective energy-saving solution.

Outstanding thermal performance

Very secure joints when the sound lagging glue is used

Built-in water vapour barrier

NBR a flexible closed cell elastomeric foam suitable for condensation control, thermal insulation and sound absorption. The NBR range covers the majority of pipe sizes used in every possible installation.

NBR is rated AS 1530.3 for spread of flame and fire propagation. It does not melt, nor drip when burning, therefore does not cause fire transfer. Low smoke density makes it a safer option.

Quick and easy to install due to its high flexibility, dimensional stability and smooth surface skin. It can be applied on pipes, ducts and tanks.

NBR pipe insulation is compounded to achieve a high water vapour diffusion resistance through its closed cell structure and outer dense skin. This helps maintaining a steady thermal performance and a long service life.

Material strength is approximately twice as strong as other elastomerics, an elastomeric foam based on synthetic rubber with density between 60-70 Kg/m3.

MFV System

Custom prefabricated
bathroom systems

The MFV system allows the installation of light load-bearing equipped walls and partition spaces for the renovation of existing bathrooms or the creation of completely new bathrooms. So an old bathroom can be refurbished or a new one can be created easily, rapidly and economically as compared to traditional renovations that involve construction work.

Velpress

PRESS-FIT CONNECTION SYSTEM BY VELOX®

The Velpress Press Fit Connection System is fully certified, reliable and simple to use, secure with permanent joints, practical design, leak indicator and flame free installation.

Guaranteed lifelong secure leak-proof joints. Velpress is versatile, cost effective and safe. The Velpress joints can't be tampered with and the design ensures easy access. Fully certified, totally on-site practical with timeless performance. With a simple installation method and no brazing, it only takes seconds to create a permanent joint between pipe and fitting.

Tamper resistant joints

Unique O-ring design provides a leak indicator during testing

Guaranteed lifelong secure leak-proof joints

Suitable for Water or Gas

Install in seconds
No Brazing required

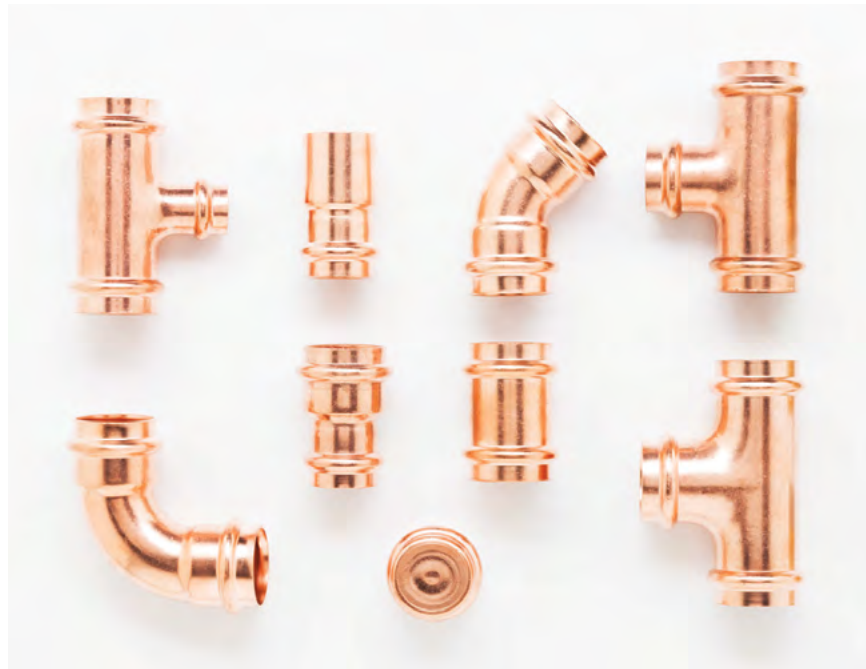

Our Velpress range consists of fittings sized 15-50mm.

Velpress Press-Fit Connection System is always cost effective in material, time and labour. Velpress offers a simple installation method that does not require brazing.

The Velpress superior resistance reduction technology allows water or gas to flow smoothly throughout the total pipeline system.

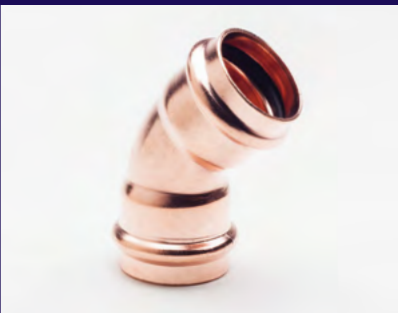

Significantly improves the pipe and flow performance as well as the efficiencies created through the Velpress Installation method. Velpress is cost effective and also minimises material, time & labour.

Velpress XL

PRESS-FIT CONNECTION SYSTEM BY VELOX®

Velpress XL has only three internal parts, the O-ring, grip ring and the seal. Both parts have an internal diameter larger than the tube, which allows for easy tube insertion and pre press leak indication.

Velpress XL

The Velpress XL range consists of fittings sized 65-100mm. Using a fast, secure and flame-free install process, Velpress XL is easy to both install and inspect.

Velpress XL is installed with a hydraulic press tool with a compatibly sized V profile jaw. Once completed, the fitting forms a permanent and durable joint with the pipe and has a 25-year warranty ensuring you peace of mind.

All Velpress XL fittings include a stainless steel grip ring with equally spaced collapse zones ensuring all round equal grip on the tube diameter and an even seal compression between tube and fitting after pressing.

Manufactured to Australian Standard AS1432, Velox copper pipes are designed to be strong and reliable and are fully compatible with our Velpress and V-Weld ranges of fittings.

Velox Copper provides peace of mind knowing you're using the highest quality product combined with the best value for money for any gas or water piping system.

As a result of our direct supply partnership with the manufacturer, we are able to supply world-class piping at highly competitive prices.

Triplus®, the evolution of push-fit waste and drainage systems.

Pipes are made up of three layers of material, which when joined, result in a system with extremely good mechanical characteristics, even at low temperatures, and excellent soundproofing performance.

A push-fit system that includes triple layer pipes, fittings and accessories, produced and patented by Valsir, that guarantees low noise emission levels of waste systems required by the NCC.

The wide range of pipes, fittings and accessories allow construction of the entire waste network, the branches of the sanitary fixtures, the stacks, waste manifolds, etc.

SPRING HANGER BOX KITS

Primarily used by those in the Mechanical industry, our innovative range of anti-vibration products are easy to install and incredibly effective in operation. We offer a comprehensive range of spring mounts, rubber mounts and isolation hangers which have been carefully tested and proven to isolate the source of vibration to create a silent and comfortable environment.

SUPERIOR HANGING TECHNOLOGY

Zip-Clip

Zip-Clip is a range of innovative products designed for speed and ease of use. The clip is manufactured from a high quality zinc alloy. The oil impregnated sintered metal wedge is designed to offer the best locking solution.

The stainless steel spring ensures the wedge engages first time. The galvanised high tensile wire rope supplied offers you a better SWL than those found on the market. All our engineered suspension products are designed with quality and safety in mind.

Acura PB2 Hangermate™

The **Acura PB2 Hangermate™** is a state-of-the-art one-piece, heavy duty steel anchor designed for rod hanging applications such as fire protection systems, ventilation systems, cable trays, pipe hanging and many other overhead threaded rod applications.

C1 Seismic Approved Vertigo - By Powers

Fast and reliable solution

The one piece design makes it easy to install and the preferred choice for fast and reliable anchoring which is also fully removable. This anchor is designed to resist structural and nonstructural loading in cracked and uncracked concrete. The patented thread design has been designed for use with standard drill bits, reduces installation torque and enhances productivity.

Fire Rated

F120 (refer to ETA-16/0867 and ETA-15/0810 for load capacities under fire)

ETA-16/0867

Cracked & uncracked concrete
ETA-15/0810
Redundant non-structural applications

Features

- Only requires 40mm embedment (seismic approved), compared to other standard vertigo
- ETA approved for cracked and uncracked concrete
- ETA approved for seismic loading
- ETA approved for redundant non-structural applications (6mm)
- F120 fire rated
- Ratchet teeth on the underside of the hex washer head lock against the fixture
- Removable and vibration resistant
- Low installation torque
- Fast installation with Immediate high strength loading
- No expansion forces
- Can be installed closer to the edge than traditional mechanical anchors

Seismic C1

C1 on sizes with ETA approval

Independently tested and approved for use on solid uncracked / cracked concrete, and hollow core concrete.

CAVITY FIXINGS

The Acura MSL Anchor is a highly unique German-made anchor used for fastening into challenging base materials where no others can. Perfect for fragile/hollow applications, MSL Anchors installation, eliminating the need of chemical fastening. The anchor also features a self-indicating torque mechanism to ensure its effectiveness & security.

* Refer page 144 for Setting Tool.

The hollow wall anchor is an excellent fixing for higher loads in plasterboard walls and ceilings. Supplied with a crossed pan head screw.

Use the setting tool to make light work of the installation of this superior fixing.

CABLE TIES

Ball lock stainless steel cable ties consist of a non-releasable locking mechanism that offers infinite adjustment along the length of the tie. Suitable for use where additional strength, fire resistance and chemical resistance is required.

Cobra V **GS 738C**

Cordless SuperPinner

Product Features

- Weighs only 3.46kg
- Easy to adjust depth control
- Easy to position in the corner with contact nose
- Easy jam clearance
- Ultra-light swing trigger - only 1.2kg
- Stainless steel mesh filters
- Easy one-step pin loading
- Easy to load fuel cell
- Soft moulded grip
- LED low battery indicator
- Reversible belt loop hook

POWER QUALITY RELIABILITY

105 joules max power

Short track rail enabling easy movement

CUTTINGSTATION SS7

A go-anywhere, multi-purpose cutting station with unrivalled safety features to minimise vibration, sparks, noise and dust.

- Recessed 110v inlet power supply, and 2 x 110v internal sockets
- Extendable back panel provides extra workspace for mitre saws
- Sound deadening, fire-rated foam to reduce noise pollution
- PVC curtains to contain sparks
- Rubber mat to reduce vibration
- Rubberised wheels for reduced vibration
- Extendable support arms with 4 configurations
- Heavy-duty all-swivel wheels for easy moving
- Secure cabinet to keep your tools safe
- Swarf collector with dust extractor connection

SITESTATION SS2

Finally - a purpose-built solution to your on site work station needs

The SiteStation gives you a convenient place for performing routine on site tasks, while also providing secure storage for your valuable equipment. The top section features a folding slanted work surface – ideal for displaying plans and charts – which when shut provides an additional lockable storage area – ideal for power tools, PPE and fixings.

- Gas struts on both sides of top compartment
- Slanted, folding work surface with lockable concealed storage area
- Robust construction giving maximum protection
- Keyed-alike 2-point tamper-proof locking system
- Pockets on doors for smaller components
- Powder coated for maximum durability
- Full-width shelves in both lower and upper compartments
- Fork skids with fixing slots for easily adding castors

MADE IN U.S.A.

MORSE[®]

HOLE SAWS

Advanced Bi-Metal Hole Saws

The latest sawing innovation.

Applications

Wood, plastic, machinable metals, stainless steel, nail-embedded wood.

Features & Benefits

- Patent pending tooth set design
- New cap - reduces runout and vibration
- Premium M42 high speed steel cutting edge, 8% cobalt - over 2 X greater life span
- Cutting depth - 1-15/16" (49.2 mm)
- Heavy duty .050 Side Wall - For greater stability
- New side slot - increased leverage for faster, easier slug removal

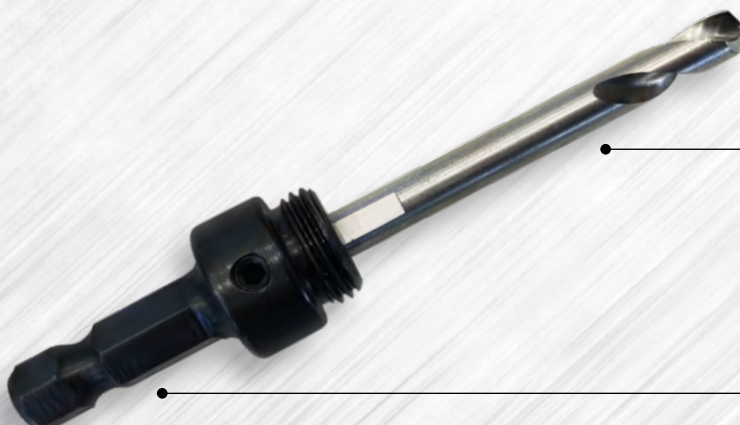

Optimized new teeth, designed to remove material faster

New coating reduces side wall friction for efficient cutting

Holesaw Mandrel

Durable, heavy-duty carbon steel mandrel's come complete with pilot drills. Adapt Morse hole saws to any power drill used by professionals.

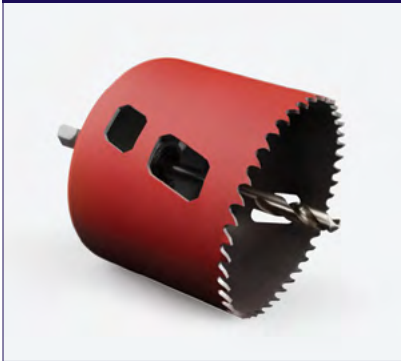

Various shank sizes available from 3/8" or 1/2" drills

Hex arbors with non-slit jaw slots

Tungsten carbide tooth tips offer the highest wear resistance possible for fast holes and longer life when cutting abrasive materials. Cutting depth is 1-1/2". Arbor required.

Features include special tooth design for very fast holesaw cutting with ground and set teeth help to cut materials that bi-metal holesaws will not cut.

ARMORGARD SOLUTIONS

ARMORGARD SITESTATION SS2

PART NO	DESCRIPTION	QTY
39AGSS2	Armorgard SiteStation SS2	1

Finally - a purpose-built solution to your on site work station needs

The SiteStation gives you a convenient place for performing routine on site tasks, while also providing secure storage for your valuable equipment like power tools, PPE and fixings.

- Split into two compartments with separate lockable doors. Both compartments contain full width shelving for easy organisation of contents.
- Slanted working shelf in top section also acts as a lockable lid for the compartment behind.
- Ideal for storing anything from PPE to fixings and power tools.
- Allows project managers to stay close to the work and workers on site, while reducing the requirement for temporary site offices.
- Robust design and 5-lever deadlocks ensure the SiteStation is secure.
- LED work light and 2x 110V sockets are built in.
- Lifting eyes, fork pockets and castors mean the unit is very mobile and easy to move around site.
- Weather resistant rubber gaskets around the openings help prevent water ingress.

800mm	1300mm	610mm

ARMORGARD CUTTINGSTATION SS7

A go-anywhere, multi-purpose cutting station with unrivalled safety features to minimise vibration, sparks, noise and dust.

The Armorgard CuttingStation is a neat, mobile workstation that eliminates the need for a separate cutting room and is essential for safely cutting lengths, such as conduit, timber, cable tray and pipe.

The SS7 model improvements include new lighting and chamfered corners to further reduce noise. You'll also find a new expandable working area to accommodate mitre saws and cutaway sides for handling longer lengths.

- A multi-purpose cutting platform, with a secure cabinet beneath the workbench area
- Recessed 240V inlet power supply 2 x 240V internal sockets
- Extendable support arms with 4 configurations
- Heavy-duty all-swivel wheels for easy moving
- Extendable back panel provides extra workspace for mitre saws
- Sound deadening fire-rated foam to reduce noise pollution
- Rubber mat to reduce vibration
- Rubberised wheels for reduced vibration
- PVC curtains to contain sparks
- Secure cabinet to keep your tools safe
- Swarf collector with dust extractor connection point
- Improved lighting position for increased productivity

ARMORGARD PIPERACK PR1

PART NO	DESCRIPTION	QTY
39AGPR1	Armorgard PipeRack PR1	1

The adaptable mobile on-site pipe and conduit storage solution.

The Armorgard PipeRack is an innovatively designed wheeled storage rack that keeps pipes and strut organised and easy to manoeuvre while you're working on site.

PipeRack is available with a 1 tonne capacity, or can be upgraded to a 2 tonne capacity with an optional upgrade kit.

- Mobile rack for storing copper pipe, conduit etc.
- Unique fold down design allowing them to be stacked up to 6 units high.
- Heavy-duty construction built to be put to the test.
- Piperacks can be linked together to cater for longer lengths, using the Armorgard Linking Kit.
- Can be linked together to hold 6 meter lengths of material.

ARMORGARD FITTINGSTOR FC6

PART NO	DESCRIPTION	QTY
39AGFC6	Armorgard FittingStor FC6	1

The storage cabinet designed to help keep your tools safe on site.

FittingStor is designed to secure all your costly M&E components and tools in one safe, easily portable location.

Featuring adjustable shelves, removable fittings bins and heavy duty castors for ease of movement, this innovative product is in high demand among site contractors.

- 5-lever deadlocks - top and bottom for maximum security.
- Robust steel plate construction, and powder coated for maximum durability
- Includes 3 sturdy reinforced adjustable shelves.
- Forklift skids are built in for easy transportation.
- Heavy duty industrial castors fitted as standard.

The mobile secure storage trunk that keeps your copper piping safe and organised.

Foil the copper thieves by keeping your valuable piping locked up on site in this innovatively designed 'copper coffin'.

The PipeStor portable secure storage trunk, gives you the peace of mind that your copper piping is safe 24/7.

The interior is divided into four sections to accommodate different sizes and styles of pipes – including plastic and metal conduit, trunking and cable tray – and is secured on one end with a heavy-duty door and lock.

Versatile design, it can be easily extended to take longer lengths of pipe by adding optional extra sections as required.

- Mobile unit, designed to keep long lengths of pipe and conduit safe and secure.
- Robust steel plate construction and finished in a durable powder coat.
- Internally divided into 4 separate compartments which maximises the storage capacity and maintains tidiness within the unit.
- Supplied in 1.5m lengths which are bolted together.
- Fork skids for easy transportation.

ARMORGARD MOBILE TUFFBENCH BH1270M-W

Engineers vice and chain vice not included.

PART NO	DESCRIPTION	QTY
39AGBH1270M-W	Armorgard Mobile TuffBench Wooden Top	1

Armorgard Mobile TuffBench Ext. Measurements & Weight

Depth	Width	Height	Weight
700mm	1200mm	940mm	97.5kg

Armorgard Mobile TuffBench Int. Measurements & Weight

Depth	Width	Height
630mm	990mm	640mm

The universal mobile workbench that's also a heavy-duty cabinet!

Use the Armorgard Mobile TuffBench™ for a day and you'll wonder how you ever got by without it.

A combination of heavy-duty storage cabinet and multi-purpose work surface, this innovative workbench makes any job that bit easier, while ensuring that your tools and equipment remain safe from thieves and damage.

Its ultra-tough surface is ideal for fixing chain vice, engineers vice and other equipment, making it indispensable for M&E contractors when pipe threading and bending.

- Fitted with wooden top, making it indispensable for M&E contractors.
- Secure cabinet section beneath the workbench to lock away tools and equipment.
- Safe working load of 1000kg.
- Powder coated with anti-corrosive undercoat.
- Fitted with extra heavy-duty wheels, to make it easier to manoeuvre on site.
- Handles fitted to each end of the unit to make it easier to move.

Can be used with engineers vice or a chain vice (not included).
